

# REMANUFACTURED CALIPERS

## Broad Range

- Full program covers over 95% of the pan-European market.
- References from 1960 to present.
- Customized range for European, Asian and American-made passenger cars, light & medium-duty commercial vehicles.
- Updated and detailed information available electronically or through a paper catalog – Provides an easy way to find the parts you need.
- Field-proven consolidations allow you to significantly lower your inventory investment.
- Continuous program additions to ensure the latest and most market-appropriate range.

## High Quality

- Hardware provided for ease of installation.
- All rear parking brake hardware installed and mechanically tested (cable bracket, lever arm, return spring) – Saves valuable installation time.
- OE-equivalent finish extends life and prevents corrosion.
- Units are pre-adjusted and ready for installation of new pads.
- 100% new bleeder screws provide trouble-free bleeding and a positive seal.
- OEM quality rubber seals and boots meet stringent S.A.E. performance and life cycle standards, ensuring years of smooth operation and reliability.
- Every brake caliper piston meets critical microfinish specifications.
- Inlet threads are chased and checked for accuracy and ease of installation.
- Each unit is 100% full-function tested for quality and durability.
- Field and endurance tested to ensure reliability.
- Every CARDONE unit is backed by a 2-year warranty.

## CARDONE Solutions

- Outstanding Supply Performance – The best and most consistent availability in the industry.
- Express International Shipping – Get the parts you need, when you need them.
- Proven Experience – CARDONE Industries Europe is based on over 35 years of remanufacturing & engineering excellence.
- OEM Quality – The program is supported by certified engineers and validated by OEM suppliers.
