

Reach the High-Performance Market with A1 CARDONE CUSTOM FX Powder-Coated Calipers

CARDONE is pleased to introduce our newest product offering, A1 CARDONE CUSTOM FX Calipers, that are powder-coated for outstanding performance and appearance that is second to none.

In addition, CARDONE builds CUSTOM FX calipers with the excellent quality and reliability you expect. They also feature mounting brackets, where applicable, and all new hardware components.

As an extension of CARDONE's Friction Choice Caliper line, CUSTOM FX Powder-Coated Caliper part numbers mirror the Friction Choice program. Although the root number will be the same, CARDONE differenti-

Available in a red, black or yellow, CARDONE's exclusive powder-coating with rust deterrent lasts longer than leading competitors' and O.E. powder-coating, ensuring superior performance.

ates powder-coated calipers with an "X" followed by a letter designating the color. An example is part number 18-4071 powder coated red; this will be listed as part number 18-4071XR.

Your electronic catalog supplier currently lists all CUSTOM FX Caliper numbers. CARDONE will feature these numbers in our new brakes catalog scheduled for release September 2005.

For more information on this and other CARDONE programs, contact your CARDONE Sales Representative.

CUSTOM FX Caliper Highlights

- 104 SKUs cover popular "tuner" domestic and import applications.
- Each SKU is available in a red, black or yellow powder-coated finish.
- Mounting brackets are installed, where applicable.
- All hardware is included, either installed on the unit or in a packing kit.
- Independent testing proves that CARDONE's exclusive powder-coating with rust deterrent lasts longer than leading competitors' and O.E. powder-coating, ensuring superior performance.
