

## FLASH All-Makes with CARDONE Service Plus

Let CARDONE Service Plus perform your FLASH Reprogramming for your GM, Ford and Chrysler applications now! All other makes will become available as OE manufacturers release their data.

When you need fast, dependable FLASH Reprogramming, but can't afford to have the tools yourself, CARDONE Service Plus has your solution! Our FLASH<sup>2</sup> All-Makes Reprogramming department offers two easy ways to service your needs:

- Order your ECC and FLASH Reprogramming through CARDONE's Priority Plus Service at 1-800-777-4780 (24-hour TAT).

- OR -

- Send your ECC to CARDONE for R&R and FLASH Reprogramming service (48-hour turnaround)

*When ordering, please provide: VIN, emissions type, transmission type*

### FLASH Reprogramming can help correct the following symptoms:

- Illuminated check engine light
- Poor gas mileage
- False trouble code readings
- Engine surge
- Rough idle
- Hard start
- Engine stalling
- Engine knocking

If you want the ability to perform FLASH Reprogramming at your own facility, consider the CARDONE FLASH<sup>2</sup> All-Makes Reprogrammer! It costs thousands less than the OE reprogrammer systems and our reprogrammer allows you to reprogram ECMs without a scan tool! You have the option to select one or more vehicle manufacturers you want to be able to FLASH Reprogram. All hardware and software are available in options of your choice, and each gives you the ability to FLASH Reprogram.
