

MAGNA-PURE™

Stop premature steering system failure and reduce comebacks by up to 40%

with patented Magna-Pure™ filtration technology offered exclusively by CARDONE

Debris is a major cause of steering system failure. It travels throughout the entire steering system, eroding and clogging various components and hoses, leading to expensive repairs. CARDONE offers two solutions to help prevent steering fluid contamination, ensuring efficient performance and long life.

Magna-Pure™ Power Steering Pumps

- Patented by-pass filtration technology
- Built-in filter alleviates need for separate in-line filter
