

What if simply buying a car part made your car more **GREEN?**

Would you do it?

**Green was in
Remanufacturing
before Green
was "IN"**

Of course you would.

Remanufacturing keeps thousands of tons of used auto parts out of scrap yards each year. But not all remanufacturers are the same. A1 CARDONE remanufactured automotive parts are disassembled, cleaned, re-engineered and rebuilt to quality standards equal to or above original equipment manufacturers — but at a much lower price.

The next time you take your car in to be repaired, ask for A1 CARDONE remanufactured products. It's not only a good choice for your wallet, it's a good choice for our planet.
